Summary

Full Stack MERN Developer with hands-on experience in React.js, Next.js, Node.js, Express.js, and MongoDB. Skilled in building scalable, responsive, and user-friendly web applications. Strong understanding of frontend architecture, backend APIs, and database integration. Passionate about delivering optimized and high-performing solutions.

Experience

Frontend Developer (Team Lead)

The Tricky Coders

July 15, 2025 - Present

- Worked on **MARVO**, a campaign-launch platform designed for multiple user types to create and manage marketing campaigns.
- Led the frontend team, handling task distribution, code reviews, and UI consistency across the platform.
- Optimized website performance and improved overall responsiveness, especially across complex dashboards.
- Built fully responsive and scalable dashboards ensuring smooth user experience across all screen sizes.
- Developed **SponseHive**, a social platform inspired by LinkedIn and Reddit with three dedicated dashboards.
- Enabled portfolio upload functionality for both **Users** and **Seekers**, allowing them to showcase their work and profiles.
- Implemented user-to-user and user-to-seeker connection flows to facilitate professional networking.
- Integrated real-time chat functionality enabling connected users and seekers to communicate directly.
- Built the complete frontend architecture using **React.js** and styled the application with **Tailwind CSS**.

Frontend Developer

Gradhub, Noida

Sep 2024 - March 2025

- Developed a responsive LinkedIn-style student dashboard using Mantine UI, featuring collapsible sections, form validations, and optimized state management.
- Built and optimized the employer job posting flow, implementing a stepper-based form with validations, error handling, and logic to display only newly posted jobs.
- Enhanced team management features by implementing role-based filtering for employee team members, improving data organization and user experience.

Frontend Developer

Metablock, Jaipur

Aug 2023 - Jan 2024

- Developed and maintained multiple web applications using React.js and Next.js.
- Integrated real-time communication using Socket.IO.
- Created reusable and optimized components with Mantine UI, MUI, and Tailwind CSS.

Projects

WhatsApp Clone (MERN Stack)

GitHub Repository

- Built a full-fledged real-time chat application using React.js, Node.js, Express.js, and MongoDB.
- Implemented real-time messaging with Socket.IO and optimized UI/UX with MUI and Tailwind CSS.

Netflix Clone (React + Firebase)

GitHub Repository

- Developed a streaming platform UI similar to Netflix using React.js and Firebase.
- Integrated Firebase Authentication and Firestore for user data storage.

COVID Tracker (React + Firebase)

GitHub Repository

- Created a live COVID-19 tracker using React.js and Firebase for real-time data updates.

Skills

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, MUI, Mantine UI

Backend: Node.js, Express.js, MongoDB, Firebase

Programming Languages: C, C++, Data Structures, SQL, MySQL

Other: Git, REST APIs, WebSockets (Socket.IO), Framer Motion, Clerk, Responsive Design

Education

Master of Computer Applications (MCA)

Rajasthan Technical University, Jaipur

2023 – 2025

CGPA: 9.4

Bachelor of Computer Applications (BCA)

University of Rajasthan, Jaipur

2020 – 2023

Percentage: 70%
